FW: Enforcement of UK Court Money Judgement against Lehman Brothers in New York

This message is High Priority.

Dear Tracey Brown,

We spoke (telephone) some time in October/November, last year. I was the Black British person who was racially discriminated against by way of dismissal whilst based in Tokyo, ...at the time i was seeking your help in trying to bring an action against Lehman Brothers in the US.

I have been able to successfully bring a case against Lehman Brothers in the UK, and have obtained a **money judgment** against them for the sum of £1,353,431.81.

I am in a situation whereby i need assistance in enforcing the money judgment against the firm, namely Lehman Brothers. As you will undoubtedly be aware the situation with Lehman Brothers having filed for 'Bankruptcy Protection' in the US, puts a sense of urgency on my pursuit of enforcement of this debt.

I have tried calling you previously, but you were unavailable, I have attached the judgment documentation for your attention, to give you some sort of background, pending when i am able to speak to you.

I have also attached some research (internet), i have done which confirms that such enforcement of a foreign money judgment is possible under US and NY laws.

As you can well understand time is short... if you possibly can, do call me my telephone number (UK) is 00 (44) 7946 208 559.

In any case, i will continue to try to reach you.

Kind Regards

Mr Kay Sehi-Emovon
